Our EWOR Education Philosophy ©

**Education Facilitation** replaces Fixed Content
Any kind of knowledge is available via content providers on the internet. The individual of the 21st century strives because she learns what is relevant, not what is stated on a standardised curriculum.

**Challenge-Driven Learning** replaces Static Learning
EWOR individuals have to solve challenges, not learn pre-defined abstract content. Challenge-driven learning fosters Problem-focused and practical attitudes as well as auto-didactic learning.

**Deep Reflection** replaces Bulk Memorisation
EWOR fosters deep reflection between individuals. We acknowledge that most content is understood once applied. We encourage individuals to reflect critically on their approaches, ventures and decisions.

**Gamified Learning** replaces Boring Curricula
Gamification has made it into almost any realm, but academic education. EWOR believes this does not have to be the case and makes it’s system fun and engaging.

We turn you into a self-driven and educated individual who strives under Volatility, Uncertainty, Chaos and Ambiguity.
The EWOR concept was conceived and developed in collaboration with senior leaders such as unicorn founders, Billion-Dollar CEOs and reputable academics.
